

Read and color:

Colors are fun and nice! We see colors everywhere.

Red is like an apple.

Pink is like a flower.

Blue is like the sky.

Black is like the night.

Brown is like a bear.

Green is like grass.

Grey is like a cloud.

Yellow is like the sun.

Let's count colors!

We can count from 1 to 20.

One red apple, two pink flowers, three blue balls, four black nights, five brown bears, six green grasses, seven grey cats, and eight yellow suns.

It is fun to see how many colors we can find!
